

BABY DOGE CEO

WHITE PAPER

v1.0

ABOUT BABY DOGE CEO

The innovative meme project, BABYDOGE CEO, boasts an array of practical utility products that are bound to captivate users across the crypto community. This is poised to have a favourable impact on the token price, potentially driving it up.

Baby Doge CEO is cute but with a lot of BITE!

Baby Doge CEO may appear endearing, but it is not without potency. The token \$BCEO is engineered to be deflationary, with the aim of decreasing in supply over time. Those who possess Baby Doge CEO will receive additional \$BCEO, automatically deposited into their wallet, merely by holding the token. Observe your wallet flourish as Baby Doge CEO holders are entitled to a 3% fee from each on-chain transaction within the Baby Doge ecosystem. The community reaps the rewards of increased Baby Doge CEO supply generated by transaction fees.

Why should I own \$BCEO Token?

Immediate Incentive for Usage

Holders of \$BCEO receive a 3% \$BCEO reward for each transaction conducted by active users, promoting equitable network distribution and community engagement. The frequency of rewards increases in tandem with BABY DOGE CEO usage, creating a mutually beneficial incentive structure

Safe and Secure

The \$BCEO smart contract will undergo a comprehensive audit conducted by a leading specialist team, Ace Audit, and its LP (Liquidity Pool) tokens.

Renounced Ownership

We have resolved to relinquish ownership of SMC, and the team did not retain any tokens. This token now belongs entirely to the community.

AI Image Generator Bot

Babe Doge presents a superlative image-generating bot that empowers users to conjure up extraordinary visuals utilizing their imaginative faculties.

Reflection Tracker Bot

Through the utilization of this bot, you can meticulously monitor all the reflections acquired by your wallet, with all the coins in your possession reflecting additional tokens. It's important to bear in mind that access to this bot is restricted solely to \$BCEO holders.
